1. The first group of people who are likely to be affected by the new law are those who are currently in the process of being deported. This group includes individuals who have been ordered removed from the country but have not yet been physically removed. They are currently in the custody of Immigration and Customs Enforcement (ICE) and are waiting for a court hearing to determine their status. The new law will require that these individuals be released from custody and allowed to remain in the country until they have been formally deported. This will likely result in a significant increase in the number of individuals who are living in the country without legal status.

2. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) tend to zero as $t \rightarrow \infty$ if and only if the matrix A is stable. The asymptotic behavior of the solutions of the system (1) is also studied for the case when the matrix A is not stable. It is shown that the solutions of the system (1) tend to infinity as $t \rightarrow \infty$ if and only if the matrix A is not stable. The asymptotic behavior of the solutions of the system (1) is also studied for the case when the matrix A is not stable.
